

## STYLE

Explosive Rockabilly, sweeping'n'swinging Rock'n'Roll and three harmonizing voices tuning Doowop, stand for the SINNERS from Hamburg since 1994 and turned this trio to one of the best acts in this genre! The energetic show of the SINNERS took the band round Germany and to Austria and Italy for so far.

## THE BAND

Are they really sinners? This is only known by themselves – but they're always worth a sin. Spending one night dancing to the rhythm of the band, tires the whole next day and makes wounded feet, but instead of this a nearly never ending smile in the face at work – all this happens by visiting one of the numerous performances of the Sinners. And then you're sure: more, I want more. The start of a wonderful addiction...

On 3rd September 1994 the band was born. Since that time Tino (guitar / vocals), Matthias (drums / vocals) and Andreas (double bass) are on stage first in their hometown Hamburg and afterwards in many other parts of Germany and Europe. You will find a successful mix of famous hits of former times, wonderful original compositions and songs of the modern age dressed up in a garment of Rock'n'Roll, Doowop and Rockabilly in the rich musical repertoire of this trio.

Their concerts make you feel like being back to the fifties...and although the band-members were not born at this time, the Rock'n'Roll is in their blood.

Just as varied as the show is the audience. In front of the stage there are older fans reminiscing the old days and teenagers who don't always want the same top ten-tones of the up-to-date charts. Whatever you are: young or old – everyone gets one's money worth – and always likes to come to the next show.

At least a striking special feature of the band: The three guys handle their instruments virtuoso and they're using their voices excellently. They are performing wonderful acapella-songs. The variety of the musicians makes every performance different and never arises any boredom.
